SYMPHYSIS-PUBIS PLATES
SYMPHYSIS-PUBIS PLATES

Strong
• 3.2mm thickness stainless steel plate (316LVM)
• Increased width through midline
• Increased hole spacing through midsection

Anatomic
• Curved Radius of 75mm designed for better anatomic fit
• Available in either 4 or 6 hole option
• Obviates the need for plate cutting and contouring
• Rounded plate ends - no sharp edges

Versatile
• All holes accept either 3.5mm or 4.5mm screws
• Both 3.5mm and 4.5mm screws are low profile within plate
• 6 hole plates can be further contoured if necessary
• Increased screw angulation when using 3.5mm screws

Material
• Can be used in conjunction with Matta Pelvic System Instrumentation
• Conforms to all relevant ISO/ASTM Standards ISO 5832-1/ASTM F138 & F139
